Abridged Minutes (2014 Annual Meeting)	16-19

REPORT OF THE CHAIRMAN AND PRESIDENT

Like all years, 2015 had some interesting economic developments that if nothing else provided an opportunity to debate if events were “good” or “bad” for our economy. Crude Oil started the year at \$60.60 per barrel and ended the year at \$38.17 per barrel. One might think this a good thing since a reduction in gas prices increases disposable income for consumers. More disposable income should theoretically increase consumption, which makes up

approximately two thirds of GDP. The downside to this decrease is that energy sector companies experience erosion of the bottom line, in some cases driving staff reductions.

The broader stock market indices showed ups and downs during 2015, ending the year relatively flat:

	1-1-2015	12-31-2015
DJIA	17,833	17,425
NASDAQ	4,727	5,007
S&P 500	2,022	2,035

Promptly we experienced a “correction” (10% or more drop) as we entered January of 2016. Is that good since consumer tendencies are to move money from equities to traditional safe havens like credit unions, providing you with liquidity? Or is that bad because you don’t need liquidity and you are managing ratios?

“Liftoff” occurred as the Fed’s FOMC Committee boosted short-term rates by 25 basis points late in 2015. In most cases, market interest rate hikes increase yield for credit union investment portfolios. However, some say the increase will drive the U.S. economy into recession in the near future.

A 9.3% stronger dollar (as measured when comparing January to December of 2015) is good for any of us travelling abroad where our purchasing power increases. Yet a stronger dollar hurts exports from the U.S. and the bottom lines of American companies selling abroad. This can translate to slow job growth and even job reductions at companies that are big exporters. Nevertheless, the unemployment rate ended the year around 5%. Some argue that this statistic carries little meaning because the employment participation level is at its lowest since the 1970’s. Even so, one must admit that 5% is a substantial improvement compared to a nearly 10% level in 2009.

Despite these economic forces at work over which we have no control, it is our job to deliver! Regardless of economic and world events, Corporate America Credit Union (CorpAm) must consistently serve credit unions. Here is a sampling of what we delivered during 2015:

Modernized Payment System Platforms

ACH Platform - This new ACH system provides more functionality for our

members, allowing for automated origination template release, faster processing, risk management, and trend analytics in addition to receipt and origination.

Coin & Currency Processing Modernization - Movement of Coin & Currency ordering to the LendingTools platform streamlines back office operations for CorpAm staff. Future plans include offering members forecasting ability for cash needs.

International Wire Processing Modernization - The transition of International Wires to CambridgeFX provided users added functionality, such as SWIFT/IBAN lookup. Placement of this service under the LendingTools platform gives members access to a total of three different services under one platform.

IRIS Mobile Banking Solution - VSoft's IRIS omni-channel platform offers the convenience of true ANYWHERE banking. IRIS streamlines multiple banking channels under a single access point, enabling members to easily conduct business using the device of their choice. This consistent, intuitive interface ensures a positive user experience while delivering the convenience members expect. IRIS combines multiple products and allows financial institutions to consolidate online banking, mobile banking, and mobile deposit into one.

Investment Options

Super 30 Account - We continually pay an above market rate on our Super 30 Account, an account requiring a 30-day notice for withdrawal that ended the year paying 65 basis points. Many ladder the amounts placed, effectively increasing yield while remaining poised to address immediate liquidity needs. The Super 30 account has proven to be a differentiator in the market and very valuable to our member credit unions across the nation.

CD Specials - Corporate America also continues to offer monthly CD specials for credit unions looking for longer term investment options. Marketable securities and brokered CDs are also available for purchase.

Liquidity Options

LoanStreet - Corporate America has partnered with LoanStreet to offer member credit unions a mechanism to automate and standardize the syndication and purchase of loans. Experts at LoanStreet are available to assist with compliance of the applicable rules and regulations associated with loan participation as well as improving or creating a program at your credit union.

At Corporate America Credit Union, our hard working staff strives to operate behind the scenes adding to your success. We want you to win by receiving excellent products and services from CorpAm, and then we win by maintaining the opportunity and privilege to work for you. Thank you for your support!

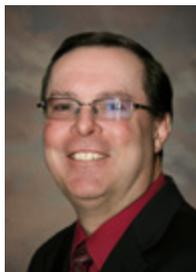

Respectfully,

Monte J. Hill, Chairman

Pete Pritts, President/CEO

REPORT OF THE TREASURER

As a result of strategic positioning and hard work by the management and staff at Corporate America, CACU continues to thrive. As we continue to adapt to an ever-changing regulatory environment and economy, change has become the new normal in credit unions. Corporate America is on pace to meet the new regulatory requirements for retained earnings well before the deadline of October 2016. Because of this new requirement, other ratios may look a little different this year. The following are a few key ratios as of December 31, 2015:

Description	Regulatory Minimum	CACU's Ratio
Leverage Ratio	4.00%	5.15%
Retained Earnings	0.45%	0.97%
Tier 1 RBC Ratio	4.00%	20.56%
Total RBC Ratio	8.00%	21.45%
Base NEV Ratio	3.00%	4.10%
NEV Ratio - Shocked	2.00%	3.77%

Corporate America Credit Union ended 2015 with over \$2.5 billion in assets, 508 members, 204 capital accounts, 189 credit unions using item processing, 136 using ACH origination and/or receipt and 154 credit unions using branch capture and proof of deposit programs. Even with continuous market changes, Corporate America's members continue to show tremendous loyalty, support and trust. We sincerely appreciate the level of confidence each member places in CACU.

Corporate America Credit Union will continue to adjust and adapt, even after October's ratio requirements go into effect. After this required regulation there will be new benchmarks for all corporate credit unions. The Board of Directors continues to monitor performance and is confident in the future of our institution. The Board is also aware any success would not be possible without our members. We appreciate you, your business and continued support as we continue to be your institution of choice. The management, staff and the Board of Directors at CACU strive each day to ensure Corporate America Credit Union is a safe and sound corporate credit union that you will continue to have confidence in for years to come.

Respectfully submitted,

Joey Hand, Secretary/Treasurer

REPORT OF THE SUPERVISORY COMMITTEE

It has been a pleasure to serve on the Supervisory Committee at Corporate America Credit Union along with Carrie Player and our newest member of the Committee, Nancy Kline, for the year 2015.

The two primary objectives of the Supervisory Committee are to ensure that financial reporting requirements are met and that the practices, procedures and internal controls safeguard members' assets.

For the year 2015, the Supervisory Committee engaged the accounting firm of Crowe Horwath LLP to assist in the fulfillment of these objectives.

The accounting firm performed an opinion audit as of December 31, 2015, and rendered an unqualified opinion on Corporate America's financial statements as of that date. This opinion is included in the Annual Report.

In addition to the annual opinion audit, Crowe Horwath LLP examined internal controls over financial reporting as of December 31, 2015, and determined Corporate America maintained effective internal controls over financial reporting. Corporate America also has an internal auditor that follows an audit plan based on an annual risk assessment which is approved by the Committee. The NCUA and ACUA jointly performed their examination in April of 2016 and had contact visits during the course of the year.

The Supervisory Committee would like to take the opportunity to thank management and staff for their full cooperation during the year.

Respectfully submitted,

Doug Key, First Vice Chairperson

Carrie Player, Chairperson
Nancy Kline, Member

REPORT OF THE LOAN OFFICER

The Loan Officer granted 1,509 loans totaling \$825,163,880 during 2015. A total of 340 members held Advised Lines of Credit totaling \$ 2,313,869,147. Cash held on balance sheet, liquid marketable securities, and tested sources of funds provide for approximately \$2.2 billion of liquidity to be raised at Corporate America Credit Union. Having the ability to quickly cover 96% of our position, we are poised to be responsive to member needs should a severe "liquidity event" materialize.

Please call upon Corporate America as a liquidity source when the need arises. Multiple products, structures, and terms are available to address your needs.

Respectfully submitted,

Pete Pritts, Loan Officer

ABRIDGED MINUTES

THIRTY-THIRD ANNUAL MEETING - APRIL 28, 2015

Call to Order

First Vice Chairman Bradley A. Long called the thirty-third annual meeting of Corporate America Credit Union to order at 8:03 a.m. Central at the Hilton Sandestin Beach Golf Resort & Spa in Destin, FL.

Recording Secretary

First Vice Chairman Long appointed Ms. Gina Self, Board Liaison/ Executive Assistant, as Recording Secretary.

Parliamentarian

First Vice Chairman Long appointed Mr. Douglas Key with Mutual Savings Credit Union as Parliamentarian.

Invocation

Director Jim Phillips gave the invocation.

Pledge of Allegiance

Director Jim Phillips requested everyone remain standing for the Pledge of Allegiance.

Attendance

First Vice Chairman Long determined that a quorum was present.

Introduction of Board

First Vice Chairman Long introduced the Board of Directors of Corporate America Credit Union.

Introduction of Supervisory Committee

First Vice Chairman Long introduced the Supervisory Committee of Corporate America Credit Union.

Approval of Consent Agenda

First Vice Chairman Long referred to the Consent Agenda, containing the Report of the Chairman and President on pages 3 and 4, Report of the Loan Officer on page 4, Report of the Treasurer on page 5, Report of the Supervisory Committee on page 6 and the Minutes of the 2013 Annual Meeting held on April 23, 2014, on pages 15-20.

ABRIDGED MINUTES

THIRTY-THIRD ANNUAL MEETING - APRIL 28, 2015

It was unanimously VOTED: that the Consent Agenda, including the minutes of the previous meeting be accepted as presented.

Comments from the First Vice Chairman

First Vice Chairman Long referenced “The Financial Crisis” the past six years had been labeled. The list of threats faced such as delinquencies, charge-offs, and investment write-downs were overcome. All endured earnings compression due to regulatory change, a shift in consumer behavior and a low interest rate environment. Not all survived the financial crisis, and entities that did have likely undergone some degree of change as a result of adapting to the pressures of an extended down economy. Corporate America Credit Union proudly emerges leaner, stronger, and poised to serve efficiently and effectively.

In closing, First Vice Chairman Long expressed gratitude to the membership for their continuing confidence in Corporate America and for the opportunity to be their corporate credit union. He stated Corporate America’s goal would continue to be helping member credit unions serve their members.

Comments from the President

First Vice Chairman Long called upon President Pete Pritts for his comments. President Pritts stated fortunately, there were numerous indications the U.S. economy was on the mend. The Fed’s action of Quantitative Easing ceased in late 2014, evidencing that Fed decision makers assess our economy as stabilizing. The nation’s unemployment rate at year-end 2014 was 6.29% and further declined to 5.5% by March 2015.

President Pritts stated that credit union loan growth was over 10% during 2014 – the highest growth rate in nine years according to CUNA and NCUA reports. This confirms credit union members are spending. As consumption makes up almost two-thirds of GDP, this is yet another sign that the economy could very well be on the road to recovery.

President Pritts went on to say Corporate America Credit Union took many steps in 2014 to serve the needs of our member-owners to help ensure your success. Most members held liquidity at undesired high levels during the year. Corporate America provided multiple investment opportunities.

ABRIDGED MINUTES

THIRTY-THIRD ANNUAL MEETING - APRIL 28, 2015

The Super 30 account provided an option to place funds in a high-yielding short-term account in this extended low-rate environment, and certificate specials were offered with structures including bullet maturities, step-up rates, and callable features.

In closing, President Pritts offered appreciation for the opportunity to work for member credit unions as we continue modernizing. Whether the financial crisis is behind or upon us, he advised we will forge ahead improving and focusing on your future as our priority.

Unfinished Business

None.

New Business

First Vice Chairman Long called upon the Nominating Committee Chairperson Gary Fairley to give the report. He began by introducing the other members of the Nominating Committee: Blane Mink and Joyce Harrison. He thanked the Committee for assisting in the nominations.

He then presented the slate of candidates as chosen by the Committee:

BOARD OF DIRECTORS

Position	Term	Nominee	Credit Union
Director	3 Years	Joey Hand	eCO Credit Union
Director	3 Years	Bradley A. Long	First Florida Credit Union
Director	3 Years	Jane Boysen	Alabama Rural Electric FCU
Director	3 Years	Mark Johnson	Naheola Credit Union
Director	3 Years	Tangela Souders	Wiregrass Federal Credit Union
Director	2 Years	George Glasser	Memorial Employees Credit Union
Director	2 Years	Dennis Holthaus	Achieva Credit Union
Director	1 Year	Clint Hartmann	Houston Texas Fire Fighters FCU

SUPERVISORY COMMITTEE

Position	Term	Nominee	Credit Union
Sup. Comm.	3 Years	Douglas Key	Mutual Savings Credit Union

Nominating Committee Chairman Fairley stated no nominations by petition had been received and as such, the nominees announced were elected by acclamation.

ABRIDGED MINUTES

THIRTY-THIRD ANNUAL MEETING - APRIL 28, 2015

Nominating Committee Chairman Fairley congratulated the elected Directors and Supervisory Committee Member. First Vice Chairman Long thanked the Nominating Committee for their work.

Introduction of Business Partners

First Vice Chairman Long introduced the Business Partners in attendance.

Years of Service Recognition

President Pritts recognized Gary Fairley and Mark Johnson for 5 years of service and Tangela Souders for 10 years of service with Corporate America.

Official Retirement Recognition

President Pritts announced Director Jim Phillips would be retiring from the Board of Directors. He presented an appreciation plaque to Director Phillips for over 50 years of dedicated service to the credit union movement and 33 years leadership to Corporate America Credit Union.

Adjournment

First Vice Chairman Long asked for a motion to adjourn. The meeting was duly adjourned at 8:28 a.m. Central.

Financial Statements

*For The Years Ended
December 31, 2015 and 2014*

MANAGEMENT REPORT

The management of Corporate America Credit Union (the “Corporate”) is responsible for preparing the Corporate’s annual financial statements in accordance with generally accepted accounting principles; for establishing and maintaining an adequate internal control structure and procedures for financial reporting, including controls over the preparation of regulatory financial statements in accordance with the instructions for the NCUA 5310 - Corporate Credit Union Call Report; and for complying with the Federal laws, if applicable, State laws and regulations pertaining to affiliate transactions, legal lending limits, loans to insiders, restrictions on capital and share dividends and regulatory reporting that meets full and fair disclosure.

The management of the Corporate has assessed the Corporate’s compliance with the Federal and if applicable, State laws and regulations pertaining to affiliate transactions, legal lending limits, loans to insiders, restrictions on capital and share dividends and regulatory reporting that meets full and fair disclosure during the fiscal year that ended on December 31, 2015. Based upon its assessment, management has concluded that the Corporate complied with the Federal laws and, if applicable, State laws and regulations pertaining to affiliate transactions, legal lending limits, loans to insiders, restrictions on capital and share dividends and regulatory reporting that meets full and fair disclosure during the fiscal year that ended on December 31, 2015.

The Corporate’s internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America and financial statements for regulatory reporting purposes, i.e., NCUA 5310 – Corporate Credit Union Call Report. The Corporate’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Corporate; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and financial statements for regulatory reporting purposes, and that receipts and expenditures of the Corporate are being made only in accordance with

MANAGEMENT REPORT

authorizations of management and directors of the Corporate; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the Corporate's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management assessed the effectiveness of the Corporate's internal control over financial reporting, including controls over the preparation of regulatory financial statements in accordance with the instructions for the NCUA 5310 – Corporate Credit Union Call Report, as of December 31, 2015, based on the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in the 2013 Internal Control – Integrated Framework.

Based upon its assessment, management has concluded that, as of December 31, 2015, the Corporate's internal control over financial reporting, including controls over the preparation of regulatory financial statements in accordance with the instructions for the NCUA 5310 – Corporate Credit Union Call Report, is effective based on the criteria established in the 2013 Internal Control – Integrated Framework.

Corporate America Credit Union

Pete Pritts, President/CEO

Rachel Dodson, VP - Accounting

INDEPENDENT AUDITORS' REPORT

Crowe Horwath LLP
Independent Member Crowe Horwath International

Supervisory Committee and Board of Directors
Corporate America Credit Union
Birmingham, Alabama

We have examined Corporate America Credit Union's (the "Corporate America") internal control over financial reporting as of December 31, 2015, based on criteria established in the 2013 *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Corporate America's management is responsible for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying *Management Report*. Our responsibility is to express an opinion on the Corporate America's internal control over financial reporting based on our examination.

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

An entity's internal control over financial reporting is a process affected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our examination were conducted to meet the reporting requirements of Regulation 704.15 of the National Credit Union Administration (NCUA), our examination of Corporate America's internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the instructions to the NCUA-5310 (Corporate Credit Union Call Report). An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Corporate America Credit Union maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in the 2013 *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards generally accepted in the United States of America, the consolidated financial statements of Corporate America Credit Union and our report dated March 31, 2016 expressed an unmodified opinion on those consolidated financial statements.

Crowe Horwath LLP
Crowe Horwath LLP

Atlanta, Georgia
March 31, 2016

INDEPENDENT AUDITORS' REPORT

Crowe Horwath LLP
Independent Member Crowe Horwath International

To the Supervisory Committee and Board of Directors
Corporate America Credit Union
Birmingham, Alabama

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Corporate America Credit Union and Subsidiaries (the Corporate), which comprise the consolidated statements of financial condition as of December 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, changes in members' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Corporate America Credit Union and Subsidiaries, as of December 31, 2015 and 2014, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

We also have examined in accordance with attestation standards established by the American Institute of Certified Public Accountants, Corporate America Credit Union's internal control over financial reporting as of December 31, 2015, based on criteria established in the 2013 Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 31, 2016 expressed an unmodified opinion.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management Review: Management has evaluated subsequent events through March 31, 2016, the date on which the financial statements were available to be issued.

Nature of Business: Corporate credit unions are not-for-profit cooperatives that make up the corporate credit union system. The primary purpose of corporate credit unions is to assist their natural-person credit union members in the financial services market. Corporate America Credit Union ("Corporate America" or "the Corporate"), an Alabama state chartered credit union, was established to operate as a corporate credit union for the purpose of meeting its members' liquidity and investment needs as well as providing settlement and other financial services. Corporate America's members consist of credit unions located across the nation, primarily within Alabama. Corporate America's board of directors is composed of current executive management from the Corporate's member credit unions. Corporate America is regulated by the Alabama Credit Union Administration (ACUA) and insured by the National Credit Union Administration (NCUA).

Corporate America's wholly-owned subsidiary, SmartSource Solutions, LLC, was formed for the purpose of providing web development, hosting, and content management services and offering online solutions for members and the credit union industry.

Principles of Consolidation: The consolidated financial statements include the accounts of Corporate America Credit Union and its wholly-owned subsidiary, SmartSource Solutions, LLC. All significant intercompany accounts and transactions have been eliminated.

Financial Statement Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Specifically management has made assumptions in estimating the fair values of financial investments, in the assessment of other-than-temporary impairment of investments and in the amortization and accretion of premiums and discounts on investments subject to prepayment risks. Actual results could differ from those estimates.

Concentration of Credit Risk: Corporate America may be exposed to credit risk since the majority of the Corporate's business activity is with its members who are primarily credit unions located across the nation, primarily within Alabama. Corporate America makes loans to these member credit unions; substantially all of the borrowing credit unions' assets, excluding residential real estate loans, are secured as collateral. Periodic credit reviews are made in order to assist the Corporate in determining the appropriate levels of allowance for doubtful accounts. Corporate America has certain member credit unions which maintain significant deposit balances. Deposits of the top five members aggregated 20% of total member deposits at December 31, 2015 and 20% of total member deposits at December 31, 2014.

Financial instruments which potentially subject the Corporate to concentrations of credit risk include cash and cash equivalents, investments, and loans to members. Cash and cash equivalents are placed with the Federal Reserve and the Federal Home Loan Bank and, at times, deposits may exceed federally insured limits. Investments consist primarily of debt obligations of the U.S. Government or its agencies or other asset-backed securities and Federal Home Loan Bank stock.

Cash and Cash Equivalents: For purposes of statement of financial condition classification and the statement of cash flows, cash and cash equivalents include cash on deposit, cash items in the process of collection and amounts due from correspondent depository institutions with maturities less than 90 days. Cash flows from loans and FHLB investments, members' accounts and borrowed funds are reported net in the statement of cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Securities: Investment accounting practices have been adopted as follows:

Available-for-Sale: Government and government agency bonds, government sponsored enterprises, mortgage-backed securities, private label commercial mortgage pass-through securities, other asset-backed securities and mutual fund investments are classified available-for-sale when the Corporate anticipates that the securities could be sold in response to rate changes, prepayment risk, liquidity, availability of and the yield on alternative investments and other market and economic factors. These securities are reported at fair value.

Unrealized gains and losses on securities available-for-sale are recognized as direct increases or decreases in accumulated other comprehensive loss. Purchase premiums and discounts are recognized in interest income using methods approximating the interest method over the terms of the securities, except for mortgage-backed securities where prepayments are anticipated.

Gains and losses on the sale of securities are recorded on the trade date and the costs of securities sold are determined using the specific identification method.

Corporate America follows the accounting guidance related to recognition and presentation of other than temporary impairment (OTTI), which is primarily codified in FASB ASC 320-10. This guidance specifies that (a) if a company does not have the intent to sell a debt security prior to recovery and (b) it is more likely than not that it will not have to sell the debt security prior to recovery, the security would not be considered other than temporarily impaired unless there is a credit loss. When an entity does not intend to sell the security and it is more likely than not the entity will not have to sell the security before recovery of its cost basis; it will recognize the credit component of an OTTI of a debt security in earnings and the remaining portion in other comprehensive income. There was no OTTI as of December 31, 2015 and 2014.

In accordance with this OTTI guidance, for debt securities that the Corporate intends to sell or would more likely than not be required to sell before the expected recovery of the amortized cost basis, OTTI is recognized in earnings as the difference between the security's amortized cost basis and fair value. For debt securities that management has no intent to sell and believes that it more likely than not will not be required to sell prior to recovery, only the credit loss component of the impairment is recognized in earnings, while the fair value loss is recognized in accumulated other comprehensive loss. The credit loss component recognized in earnings is identified as the amount of principal cash flows not expected to be received over the remaining term of the security as projected based on cash flow projections. See Note 2 to the Consolidated Financial Statements for disclosures related to Corporate America's investment in securities and other than temporary impairments.

Federal Home Loan Bank Stock: Corporate America's investment in stock of the Federal Home Loan Bank ("FHLB") is accounted for at cost because it does not have a readily determinable market value and because its ownership is restricted. At December 31, 2015 and 2014, the Corporate maintains the minimum investment required by the FHLB, which amounted to \$9,050,000 and \$9,307,500, respectively. Management evaluates the FHLB stock annually for impairment based on the ultimate recoverability of the cost basis in the FHLB stock.

Loans to Members: Loans to members consist of settlement loans, demand loans and term loans. Loans to members are stated at the unpaid principal amount outstanding, net of any related allowance for loan losses. Interest rates charged on settlement and demand loans are at a variable rate. Term loans are advanced at fixed rates. Interest income is accrued on the daily balance outstanding at the rate in effect. Loans to members are secured by substantially all of the member's assets excluding residential real-estate loans.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The allowance for loan losses is based on management's evaluation of the collectability of the loans. The evaluation of management includes consideration of prior loan-loss experience, the results of internal review procedures, the current financial condition of the borrower, the quality of the collateral and current economic conditions affecting the inherent collection risks of the loan portfolio. The accrual of interest is discontinued when management believes that the collection of interest is doubtful. Corporate America has not historically incurred loan losses. At December 31, 2015 and 2014, management determined that all loans were collectable and, therefore, no allowance for loan losses was recorded.

Property and Equipment: Land is carried at cost. Building, leasehold improvements, furniture, fixtures, and equipment are carried at cost less accumulated depreciation and amortization. Depreciation and amortization is calculated over the estimated useful lives of the assets (typically ranging from 2 to 30 years) using the straight-line method.

Credit Union Service Organization (CUSOs) Equity Investments: CUSOs are entities created to serve credit unions and are subject to review by the NCUA. The Corporate is a less than 20% owner in Primary Financial Company, LLC and Core Network Processing, LLC, both of which are CUSOs. As of December 31, 2015 and 2014, the stock in Primary Financial Company, LLC and Core Network Processing, LLC are reported in other assets at the equity value of \$251,859 and \$271,028, and \$130,044 and \$125,240, respectively. Management evaluates CUSO stock annually for impairment. The Corporate's consolidated wholly-owned subsidiary, SmartSource Solutions, LLC is a CUSO.

Credit Union Owned Life Insurance: The Corporate has purchased life insurance policies on certain key executives. Credit union owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

National Credit Union Share Insurance Fund: The deposit in the National Credit Union Share Insurance Fund (NCUSIF) is in accordance with NCUA regulations, which require the maintenance of a deposit by each insured credit union in an amount equal to 1% of its insured shares. The deposit would be refunded to the Credit Union if its insurance coverage is terminated, it converts to insurance coverage from another source, or the operations of the fund are transferred from the NCUA Board.

NCUSIF Stabilization Fund Assessments: In recent years, due to the actions of the NCUA Board to stabilize the corporate credit union system, the NCUA assessed a Stabilization Fund assessment. There was no assessment for the years ended December 31, 2015 and 2014.

Deferred Settlement Balances: Deferred settlement balances primarily consist of uncollected cash items such as uncollected cash letters and net ACH transactions that have not cleared the Federal Reserve Bank.

Members' Accounts: Members' shares are subordinated to all other liabilities of the Corporate upon liquidation. Interest on members' accounts is based on available earnings at the end of an interest period and is not guaranteed by the Corporate. Interest rates on members' accounts are set by management, as authorized by Corporate America's Board of Directors, based on an evaluation of current and future market conditions.

Members' Equity - Perpetual Contributed Capital and Perpetual Paid-in-Capital: As of December 31, 2015 and 2014, Corporate America had the following perpetual contributed capital and perpetual paid-in-capital outstanding:

- PIC III is a non-voting class of membership equity investment in Corporate America that is perpetual non-maturing and non-cumulative. As of December 31, 2015 and 2014, \$85,320,000 in PIC III was outstanding with no stated maturity.
- PCC I is a non-voting class of membership equity investment in Corporate America that is perpetual non-maturing and non-cumulative. As of December 31, 2015 and 2014, \$8,180,817 in PCC I was outstanding with no stated maturity.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- PCC II is a non-voting class of membership equity investment in Corporate America that is perpetual non-maturing and non-cumulative. As of December 31, 2015 and 2014, \$6,594,703 in PCC II was outstanding with no stated maturity.

Effective October 20, 2011, the Revised Corporate Part 704 Rule established new capital types. The term "perpetual contributed capital" (PCC) replaced "paid-in-capital" (PIC) for any new issuances. The shares that were issued prior to the rule revision will remain classified as paid-in-capital.

For financial statement presentation at December 31, 2015 and 2014, PIC III, PCC I and PCC II accounts are classified as substantially restricted equity and dividend payments are recorded as a reduction of equity.

Perpetual paid-in-capital (PIC III) is a separate subordinate, non-voting class of membership equity investment in Corporate America that is perpetual non-maturing and non-cumulative. Payment of dividends and repayment of principal is subordinate to all share certificate accounts and all previous issues of paid-in-capital accounts (PIC I & PIC II). PIC III accounts are wholly at-risk and are not subject to share insurance coverage by the NCUSIF, were offered at the discretion of Corporate America, are callable only at the option of Corporate America with prior permission from both the NCUA and the ACUA, may not be pledged in whole or in part, and are available to cover losses that exceed the Corporate's retained earnings. In the event of liquidation, funds in the PIC III accounts are payable only after satisfaction of all liabilities including perpetual contributed capital and all previously issued paid-in-capital.

Perpetual Contributed Capital (PCC I) is a subordinate, non-voting class of membership equity investment in Corporate America that is perpetual non-maturing and non-cumulative. Payment of dividends and repayment of principal is subordinate to all liabilities of the liquidation estate including uninsured obligations to shareholders and the NCUSIF but not including contributed capital accounts issued before January 18, 2011. However, paid-in-capital that is used to cover losses in a calendar year previous to the year of liquidation has no claim against the liquidation estate. PCC I accounts are not subject to share insurance coverage by the NCUSIF or other share or deposit insurance, were offered at the discretion of Corporate America, are callable only at the option of Corporate America with prior permission from both the NCUA and ACUA, may not be pledged against borrowings, and are available to cover losses that exceed the Corporate's retained earnings. In the event of liquidation, any claims made by the holders of PCC I will be subordinate to all other claims, including uninsured obligations to shareholders and the NCUSIF, but not including contributed capital accounts issued before January 18, 2011.

Perpetual Contributed Capital (PCC II) is a subordinate, non-voting class of membership equity investment in Corporate America. Payment of dividends and repayment of principal with respect to Corporate America Perpetual Contributed Capital II is subordinate to all liabilities of the liquidation estate including uninsured obligations to shareholders and the NCUSIF except contributed capital accounts issued before January 18, 2011. However, paid-in-capital that is used to cover losses in a calendar year previous to the year of liquidation has no claim against the liquidation estate. PCC II has no scheduled maturity date and is not redeemable except upon call by Corporate America and subject to maintenance of capital levels mandated by the NCUA, the ACUA, and the capital plan as set forth by the Board of Directors of Corporate America Credit Union from time to time. In order to call PCC II, Corporate America would have to have prior permission from both the NCUA and the ACUA. PCC II accounts are callable on a pro-rata basis across an issuance class.

Members' Equity - Undivided Earnings: Undivided Earnings represents the balance of retained earnings which is available for dividends.

Members' Equity – Reserves: Corporate America is required by the NCUA and ACUA to maintain corporate and special reserves which are calculated in accordance with applicable federal and state regulations. The amounts in these reserves are not available for dividends. (See Note 7 - Regulatory Capital)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes: Corporate America is exempt from federal income taxes under provisions of the Internal Revenue Code, Section 501. The State of Alabama imposes a 6.5% excise tax on the taxable income of state-chartered credit unions. The Corporate's subsidiaries are subject to federal and state income taxes. Subsidiary income taxes are accounted for using the asset and liability approach, the objective of which is to recognize the amount of taxes payable or refundable for the current year. Any deferred tax assets or liabilities for future tax consequences have not been recognized and are immaterial to the consolidated financial statements. Subsidiary accrued income tax payable for the year end December 31, 2015 and 2014 amounted to \$83,103 and \$27,611, respectively.

Based on the guidance from the provisions of FASB ASC 740, *Income Taxes*, associated with uncertainty in income tax positions, tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the positions will be sustained upon examination by the tax authorities. Such tax positions initially and subsequently need to be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts. Based on this guidance, management has assessed whether there were any uncertain tax positions that may give rise to income tax liabilities and has determined that as a state-chartered credit union, Corporate America is subject to unrelated business income tax. Corporate America is a state-chartered credit union described in Internal Revenue Code (IRC) Section 501(c)(14). As such, Corporate America is exempt from federal taxation of income derived from the performance of activities that are in furtherance of its exempt purposes. However, IRC Section 511 imposes a tax on the unrelated business income (as defined in Section 512 and Section 514) derived by state-chartered credit unions. The specific application of Section 512 to the various activities conducted by state-chartered credit unions has been a point of contention between state-chartered credit unions and the IRS for many years. During 2007, the Internal Revenue Service (IRS) issued a series of Technical Advice Memoranda (TAM) to a number of state-chartered credit unions located throughout the country. In these TAMs the IRS ruled that certain products and services are subject to taxation as unrelated business income. Certain credit unions have contested the IRS TAM rulings in court. Recent judgments have been in favor of the credit unions.

Corporate America has assessed its activities and any potential federal income tax liability. Corporate America believes that it has appropriate support for the income tax positions taken and to be taken on its tax returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. In the opinion of management, any liability arising from federal taxation of activities deemed to be unrelated to its exempt purposes is not expected to have a material effect on the Corporate's financial position or results of operation. Corporate America has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits requiring recognition in the consolidated financial statements.

The taxing authorities have the ability to assess taxes, penalties and interest for any years for which no tax return was filed. In the opinion of management, the potential tax liability and any potential additional liability resulting from the taxing authorities imposing taxes, penalties, and interest on the taxes due is not expected to have a material effect on the Corporate's financial position or results of operations. Years 2013 through 2015 are subject to audit by Federal and State tax authorities.

Retirement Plan: Pension expense is the net of service and interest cost, return on plan assets and amortization of gains and losses not immediately recognized. Employee 401(k) and profit sharing plan expense is the amount of matching contributions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Comprehensive Loss: Comprehensive loss consists of net income and other comprehensive income (loss). Other comprehensive loss includes unrealized gains and losses on securities available-for-sale and changes in the funded status of defined benefit plan assets. At December 31, 2015 and 2014, accumulated other comprehensive loss was comprised of the following:

	<u>2015</u>	<u>2014</u>
Unrealized gains (losses) on securities available-for-sale	\$ (10,675,307)	\$ 28,390
Defined benefit plan related adjustments	<u>(1,677,710)</u>	<u>(639,680)</u>
Accumulated other comprehensive loss	<u>\$ (12,353,017)</u>	<u>\$ (611,290)</u>

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there now are such matters that will have a material effect on the financial statements.

Off-Balance-Sheet Credit Related Financial Instruments: In the ordinary course of business, the Corporate has entered into commitments to extend credit. Such financial instruments are recorded when they are funded.

Adoption of New Accounting Standards and Newly Issued Not Yet Effective Accounting Standards: In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) and in August 2015 issued ASU 2015-14 Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date which amended existing guidance related to revenue from contracts with customers. This amendment supersedes and replaces nearly all existing revenue recognition guidance, including industry-specific guidance, establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time, provides new and more detailed guidance on specific topics and expands and improves disclosures about revenue. In addition, this amendment specifies the accounting for some costs to obtain or fulfill a contract with a customer. These amendments are effective for annual reporting periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. Early application is permitted only as of annual reporting periods beginning after December 15, 2016, and interim reporting periods within annual reporting periods beginning one year after the annual reporting period in which the entity first applies the guidance of ASU 2014-09. The amendments should be applied retrospectively to all periods presented or retrospectively with the cumulative effect recognized at the date of initial application. The Corporate is currently evaluating the impact of this new accounting standard on the consolidated financial statements.

**NOTES TO
CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 2 - INVESTMENT SECURITIES - AVAILABLE-FOR-SALE

The amortized cost and estimated fair value of available-for-sale investments as of December 31, 2015 and 2014 are as follows:

December 31, 2015

Securities Available-for-Sale	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
U.S. Government Agency or GSE:				
CMOs	\$ 128,793,343	\$ 96,761	\$ (3,013,463)	\$ 125,876,641
Mortgage-backed securities: Residential	2,486,023	-	(44,316)	2,441,707
Agency	6,169,483	-	(57,217)	6,112,266
SBA loan pools	<u>717,561,453</u>	<u>2,965,732</u>	<u>(3,026,707)</u>	<u>717,494,126</u>
	<u>855,010,302</u>	<u>3,062,493</u>	<u>(6,141,703)</u>	<u>851,924,740</u>
Asset-backed securities				
FFELP backed student loans	303,088,951	166,162	(5,627,233)	297,627,880

NOTE 2 - INVESTMENT SECURITIES - AVAILABLE-FOR-SALE (Continued)

U.S. Government Agency or Government Sponsored Enterprises: At December 31, 2015, Corporate America's available-for-sale portfolio was comprised of approximately 51% in debt obligations of U.S. Government Agencies or Government Sponsored Enterprises (GSEs). Approximately 15% of these agency securities were comprised of mortgage obligations (CMOs and MBS) that were either issued by a U.S. Government Agency such as the Government National Mortgage Association (Ginnie Mae) or GSEs such as the Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac). GSEs are independent organizations generally considered to be of high credit quality that are in part sponsored by the U.S. Government and generally carry an implicit guarantee. In addition, approximately 84% of the agency portfolio at December 31, 2015 consisted of Small Business Administration (SBA) loan pools that are fully guaranteed by the full faith and credit of the U.S. Government and are considered to have the highest credit quality.

Non-Agency Securities: At December 31, 2015, non-agency securities were comprised almost entirely by asset-backed securities with senior structures that contain multiple credit enhancements including subordination, cross/over-collateralization and yield spreads. Additionally, as of December 31, 2015, approximately one-third of the Corporate's asset-backed securities are collateralized by student loans that are insured 97% by the Federal Family Education Loan Program (FFELP).

As of December 31, 2015 and 2014, the Corporate's non-agency securities consisted of:

<u>Underlying Collateral</u>	2015		
	<u>Amortized Cost</u>	<u>Estimated Fair Value</u>	<u>Unrealized Gain/(Loss)</u>
FFELP Backed Student Loans			
Structured term security	\$ 253,744,593	\$ 248,521,380	\$ (5,223,213)

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market conditions warrant such evaluation. Consideration is given to many factors including (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) whether or not the Corporate intends or will be required to sell the security prior to recovery of its cost basis. In analyzing an issuer's financial condition, management considers many factors, including whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and the results of the issuer's financial condition.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 2 - INVESTMENT SECURITIES - AVAILABLE-FOR-SALE (Continued)

Government Agency/Sponsored Enterprises Debt Securities: The decline in fair values of Corporate America's agency and GSE debt securities are primarily attributable to interest rate changes and changes in credit spreads and do not reflect the underlying credit quality and expected performance of Corporate America's holdings. Additionally, the contractual terms of the investments do not permit the issuers to settle the securities at a price less than the amortized cost basis of the investments. Because the decline in market value is attributable to changes in interest rates and not credit quality, and because Corporate America does not intend to sell the investments and it is not more likely than not that the Corporate will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, Corporate America does not consider these investments to be other than temporarily impaired at December 31, 2015.

Non-Agency Asset-Backed Securities: The unrealized losses associated with Corporate America's non-agency asset-backed securities are primarily driven by interest rate changes, changes in credit spreads and the failed auction process of auction rate securities (ARS) and do not reflect the underlying credit quality and expected performance of Corporate America's holdings. At December 31, 2015, substantially all of Corporate America's non-agency asset-backed securities are High-Grade to AAA-rated senior structures and contain multiple credit enhancements including subordination, cross/over-collateralization and yield spreads. Furthermore, 36% of these asset-backed securities (including all auction rate securities) are collateralized by student loans that are insured 97% by the U.S. Government through the Federal Family Education Loan Program (FFELP).

There has not been a successful auction process for the Corporate's ARS since the beginning of the economic crisis in early 2008. While these securities generally have long-term nominal maturities that exceed one year, historically under the normal auction process, the interest rates would reset periodically in scheduled auctions (generally every 7-35 days). Due to the auction failures, Corporate America has realized higher interest rates for many of these ARS than it would have otherwise. Although the Corporate has been receiving interest payments at these generally higher rates, the related principal amounts will not be accessible until a successful auction occurs, a buyer is found outside of the auction process, the issuer calls the security, or the security matures according to contractual terms. Corporate America does not currently expect to liquidate any auction rate securities going forward through the normal auction process.

At December 31, 2015, the estimated fair values of the Corporate's auction rate securities were approximately \$237,858 less than their amortized cost (0.48% depreciation). Management attributes the decline in market value to 1) the complexities of the instruments in projecting interest rates and cash flows, 2) the infrequent trading of identical or similar securities, and 3) the long term nominal maturities of the securities. No credit issues have been identified that cause management to believe the declines in market value are other-than-temporary. Based on this evaluation and based on the fact that management does not intend to sell the investments and it is not more-likely-than-not that the Corporate will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Corporate does not consider the declines in market value to be other-than-temporary as of December 31, 2015.

Other-Than-Temporary Impairment (OTTI): Management routinely performs internal reviews of investment securities to determine whether other-than-temporary impairment has occurred. While all securities are considered, the securities primarily impacted by OTTI analysis are non-agency securities (including but not limited to those whose fair value is less than their amortized cost basis). Management utilizes models to help determine whether an other-than-temporary impairment has occurred on an analyzed security. Management also considers a number of factors, including 1) the bond's overall structure and underlying collateral, 2) whether the security or collateral are issued or backed by the federal government or its agencies, 3) whether down-grades by bond rating agencies have occurred, 4) other credit enhancements such as credit spreads and over collateralization, 5) general market and economic conditions, as well as 6) whether or not the Corporate intends or will be required to sell a security prior to recovery of its cost basis. For securities that project potential principal and interest losses, management further evaluates securities for OTTI using models that incorporate various inputs and assumptions, the most significant of which are prepayment, default rate and loss severity assumptions. If management determines that a security's position will be subject to a write-

**NOTES TO
CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 2 - INVESTMENT SECURITIES - AVAILABLE-FOR-SALE (Continued)

down or loss, the expected credit loss is recorded as a charge to earnings. As of December 31, 2015, substantially all of the Corporate's non-agency asset-backed securities at year end were High-Grade to AAA rated by more than one credit rating service. As result of its OTTI analysis at December 31, 2015 and December 31, 2014, management determined that there were no securities other-than-temporarily impaired due to risk of credit default.

NOTE 3 - LOANS TO MEMBERS

The summary of the major categories of loans at December 31, 2015 and 2014 was as follows:

	<u>2015</u>	<u>2014</u>
Loans to members:		
Fixed-rate term loans:	\$ 10,250,000	\$ 4,375,000
Settlement lines of credit	<u>3,980,699</u>	<u>1,116,061</u>
	<u>\$ 14,230,699</u>	<u>\$ 5,491,061</u>

There were no past-due, impaired, restructured or nonaccrual loans and management determined that all loans to member credit unions were collectible in full and therefore no allowance for loan losses was deemed necessary as of December 31, 2015 and 2014. Management considers loan balances to a single member greater than 20% of total loans to have a concentration. At December 31, 2015, Corporate had loans to one member totaling \$6,000,000 (42% of total loans) and an interest rate of 1.44%. Due to the limited nature of lending, the Corporate does not have an internal risk rating system for loans.

NOTE 4 - PROPERTY AND EQUIPMENT

A summary of the Corporate's property and equipment as of December 31, 2015 and 2014 is as follows:

	<u>2015</u>	<u>2014</u>
Land	\$ 459,127	\$ 459,127
Building	2,239,506	2,192,203
Furniture and equipment	<u>2,523,135</u>	<u>2,092,490</u>
	5,221,768	4,743,820
Less accumulated depreciation	<u>(2,307,033)</u>	<u>(1,953,628)</u>
Property and equipment, net	<u>\$ 2,914,735</u>	<u>\$ 2,790,192</u>

Depreciation expense for the years ended December 31, 2015 and 2014 amounted to \$410,792 and \$549,480, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 5 - MEMBERS' SHARE AND CAPITAL ACCOUNTS

Members' share and capital accounts are summarized as follows:

	<u>Balance</u>	<u>Dividend and Interest Expense</u>
<u>December 31, 2015</u>		
Share accounts	\$2,078,276,344	\$ 3,446,114
Non-perpetual contributed capital account (NCA)	19,090,522	19,355
Membership capital accounts (MCA)	-	-
Non-perpetual paid-in-capital accounts (PIC I & II)	<u>5,668,704</u>	<u>5,654</u>
Member share certificates	<u>180,765,695</u>	<u>1,574,604</u>
	<u>\$2,283,801,265</u>	<u>\$ 5,045,727</u>
<u>December 31, 2014</u>		
Share accounts	\$1,551,368,355	\$2,095,756
Non-perpetual contributed capital account (NCA)	19,090,522	19,355
Membership capital accounts (MCA)	-	1,233
Non-perpetual paid-in-capital accounts (PIC I & II)	<u>5,668,704</u>	<u>5,658</u>
Member share certificates	<u>163,046,280</u>	<u>1,376,780</u>
	<u>\$1,739,173,861</u>	<u>\$ 3,498,782</u>

Share accounts are comprised of settlement and overnight shares that are available on demand and other short term liquidity accounts that require 30-day notice for withdrawal. Typically share account dividends accrue daily and are paid monthly. Share certificates typically have specific maturities and dividend rates. Dividend payments on share certificates vary depending on type and the length of maturity. Share certificates can be redeemed by members prior to maturity at fair value, as determined by Corporate America. Dividend rates are set by management, as authorized by Corporate America's Board of Directors, based on an evaluation of current and future market conditions.

The composition of share certificates at December 31, 2015 and 2014 were as follows:

<u>Certificates</u>	<u>2015</u>	<u>2014</u>
Fixed-rate term	\$ 128,790,195	\$124,232,280
Fixed-rate structured	<u>51,975,500</u>	<u>38,814,000</u>
	<u>\$ 180,765,695</u>	<u>\$163,046,280</u>

Scheduled contractual maturities of share certificates as of December 31, 2015 are as follows:

<u>Years Ending December 31,</u>	<u>Amount</u>
2016	\$ 61,986,000
2017	45,898,195
2018	55,341,500
2019	7,540,000
2020	<u>10,000,000</u>
	<u>\$ 180,765,695</u>

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 5 - MEMBERS' SHARE AND CAPITAL ACCOUNTS (Continued)

The aggregate amount of members' share and savings accounts in excess of \$250,000 at December 31, 2015 and 2014 was \$2,291,728,304 and \$1,626,522,967, respectively.

Member Contributed Capital under Revised Corporate Rule 704

Effective October 20, 2011, the Revised Corporate Part 704 Rule established new capital types. The term "perpetual contributed capital" (PCC) replaced "paid-in-capital" (PIC) and the term "nonperpetual capital account" (NCA) replaced the term "membership capital account" (MCA). Under the revised rule, MCAs that were not converted to NCAs or PCC by October 20, 2011, were put on notice by the Corporate and, to the extent not needed to cover operational losses, returned to the member at the end of the notice period. (See also Note 7 - Regulatory Capital and Revised Corporate Rule 704).

Non-perpetual Capital Accounts (NCA) - have an indefinite term with a minimum withdrawal notice of five years; are not insured by the NCUSIF or other share or deposit insurers; cannot be pledged against borrowings; and are available to cover losses that exceed the Corporate's retained earnings, all capital accounts issued before January 18, 2011 and perpetual capital accounts issued on or after January 18, 2011. Any such losses would be distributed pro rata, at the time the loss is realized, among NCA account holders. To the extent that NCA funds are used to cover losses, the Corporate is prohibited from restoring or replenishing the affected accounts under any circumstance. In the event of liquidation, the holders of NCAs will claim equally; these claims will be subordinate to all other claims (including uninsured obligations to shareholders and NCUSIF claims), but not including contributed capital accounts issued before January 18, 2011 or perpetual capital accounts issued on or after January 18, 2011. However, NCAs that are used to cover losses in a calendar year previous to the year of liquidation have no claim against the liquidation estate.

Non-Perpetual Paid-In-Capital Accounts (PIC I & PIC II) - Non-perpetual PIC accounts were offered at the discretion of Corporate America, are not subject to share insurance coverage by the NCUSIF, are callable only at the option of the Corporate with prior permission from both the NCUA and the ACUA, and may not be pledged in whole or in part. Paid-in-capital share deposits are available to cover losses that exceed retained earnings, and in the event of liquidation, funds in the PIC I and PIC II accounts are payable only after satisfaction of all liabilities including NCAs and perpetual contributed capital (PCC), but not including perpetual paid-in-capital (PIC III). As of December 31, 2015, Corporate America's non-perpetual paid-in-capital consisted of two separate issuances.

- PIC I, issued January 1, 1998 with a maturity date of December 31, 2017; \$5,264,008 and \$5,264,008 outstanding as of December 31, 2015 and 2014, respectively.
- PIC II, issued June 29, 2001 with a maturity date of June 28, 2021, \$404,696 and \$404,696 outstanding as of December 31, 2015 and 2014.

For financial statement presentation, PIC I and PIC II are classified as member deposit account liabilities due to the fact that they are non-perpetual.

NOTE 6 - FEDERAL HOME LOAN BANK BORROWINGS

The Corporate maintains a line of credit with the Federal Home Loan Bank (FHLB) of Atlanta from which it obtains structured collateralized advances. As of December 31, 2015 and 2014, the Corporate had total outstanding advances of \$170,000,000 for each year. The maximum credit available at December 31, 2015 and 2014 was \$560,453,000 and \$439,360,000, respectively; this amount is evaluated and adjusted monthly based on the size of the Corporate's assets. At December 31, 2015 and 2014, the advances are collateralized by investments with market values totaling \$260,548,133 and \$404,023,028, respectively.

Floating to Fixed (*)	<u>10,000,000</u>	2.62120%	04/04/2017	N/A	Quarterly	Quarterly
	<u>\$ 170,000,000</u>					

(*) The Corporate restructured these advances during 2013 and the interest rate converted from floating to fixed on 4/03/2015 (maturing 4/03/2020) & 4/06/2015 (maturing 4/04/2017). There were no fees associated with these modifications.

(**) 10 year / 7 year European Convertible has a conversion option after the 7th year that allows the FHLB to 1) extend the advance to the contractual maturity at the same fixed rate or 2) terminate the advance at the conversion date.

NOTE 7 - REGULATORY CAPITAL

Corporate America is subject to various regulatory capital requirements administered by the NCUA. Failure to meet minimum capital requirements can initiate certain mandatory, and possible additional, discretionary actions by regulators that, if undertaken, could have a direct material effect on the Corporate's financial statements. The regulatory capital standards are set forth by the NCUA in Part 704 of the NCUA Rules and Regulations. The revised corporate rule Part 704 became effective on October 21, 2011. Among other things, the revised final rule modified the corporate credit union capital requirements to make them more consistent with the Basel 1 capital requirements imposed by banking regulators on banks. The revised final rule 704 establishes a new capital structure, including risk-based capital requirements and established prompt corrective action (PCA) requirements for corporate credit unions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 7 - REGULATORY CAPITAL (Continued)

The revised final rule 704 replaced the 4% minimum total capital ratio with three minimum capital ratios:

- "Leverage" ratio (4% to be adequately capitalized) (5% to be well capitalized) - The 4% leverage ratio became effective on October 21, 2013 and is defined as the ratio of Tier 1 core capital to moving daily average net assets (MDANA).
- Tier 1 risk-based capital ratio (4% to be adequately capitalized) (6% to be well capitalized) - Tier 1 core capital is defined as the sum of retained earnings and perpetual contributed capital. The Tier 1 risk-based capital ratio is defined as the ratio of Tier 1 capital to the moving monthly average net risk-weighted assets (MMANRA).
- Total risk-based capital ratio (8% to be adequately capitalized) (10% to be well capitalized) - The total risk-based capital ratio is defined as the ratio of total capital (retained earnings, perpetual contributed capital (PCC) or nonperpetual capital (NCA) to moving monthly average net risk-weighted assets (MMANRA)).

Failure to meet any of these three minimum ratios triggers a capital restoration plan requirement and potentially other new PCA provisions. The new capital requirements are being phased-in over ten years. The first significant phase-in date was October 21, 2011, which is when the new minimum risk based capital ratios and an "interim" leverage ratio became effective. The next significant phase-in date was October 21, 2013, which is when the new regulation required a minimum 45 basis points of retained earnings in conjunction with total Tier 1 capital of at least 4%. In 2016, corporates will be required to have a 1% retained earnings ratio; after ten years, in 2020, the new regulation requires a 2% retained earnings ratio.

As part of the new capital requirements, the final revised 704 rule also contains contributed capital conversion requirements. Effective October 20, 2011, the revised 704 rule established new capital types that are different from the old Part 704. The term "perpetual contributed capital" (PCC) replaced "paid-in-capital" (PIC) and the term "nonperpetual capital account" (NCA) replaced the term "membership capital account" (MCA). Under the new rule, membership capital accounts (MCAs) that were not converted to NCAs or PCC by October 2011 were put on notice by the corporate and, to the extent not needed to cover operational losses, returned to the member at the end of the notice period. Under the revised final 704 rule, non-perpetual contributed capital (NCAs) and non-perpetual paid-in-capital qualify as Tier 2 capital.

As of December 31, 2015, the most recent NCUA Call Reporting period, the Corporate was categorized as "well capitalized" under the regulatory framework for prompt corrective action. To remain categorized as "well capitalized", the Corporate will have to maintain minimum Total risk-based, Tier 1 risk-based, and Leverage ratios as disclosed in the table below. There are no conditions or events since the most recent notification that management believes have changed the Corporate's prompt corrective action category.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 7 - REGULATORY CAPITAL (Continued)

The Corporate's actual and required capital amounts and ratios are as follows:

<u>December 31, 2015</u>	<u>Actual</u>		<u>For Capital Adequacy Purposes</u>		<u>To Be Considered Well Capitalized</u>	
	<u>Amount</u>	<u>Rate</u>	<u>Amount</u>	<u>Rate</u>	<u>Amount</u>	<u>Rate</u>

PIC I & II non-perpetual	404,696	404,696
NCA (unamortized)	<u>6,166,092</u>	<u>10,529,276</u>
	<u>\$ 106,666,308</u>	<u>\$ 111,029,492</u>

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 7 - REGULATORY CAPITAL (Continued)

Net Economic Value (NEV) and Operating Authority Levels

In addition to the regulatory capital requirements, Part 704 also establishes minimum Net Economic Value (NEV) and NEV ratio thresholds as well as various levels of operating authority based upon the level of investment authority sought by the corporate credit union and authorized by the NCUA Board. Under the revised Part 704, Corporate America has obtained "Base-Plus" operating authority. As such, NEV sensitivity is limited to a 20% change from base and the NEV ratio must be greater than the minimum required ratio of 2%.

If any violation of these regulatory limits persists for 30 calendar days, a detailed, written action plan that sets forth the time needed and means by which it intends to correct the violation must be submitted to NCUA. The Corporate's NEV measures as of December 31, 2015 were as follows:

	<u>Actual</u>	<u>Part 704 NEV Requirements</u>
NEV Ratio	4.10 %	≥ 2.0%
% NEV Change (+) 300 bp (*)	(9.16)%	(20)%

The Corporate's NEV measures as of December 31, 2014 were as follows:

	<u>Actual</u>	<u>Part 704 NEV Requirements</u>
NEV Ratio	5.49 %	≥ 2.0%
% NEV Change (+) 300 bp (*)	(13.57)%	(20)%

NOTE 8 - TRANSACTIONS WITH AFFILIATES

The Board of Directors of the Corporate is comprised of employees of member credit unions. During the years ended December 31, 2015 and 2014, the Corporate entered into numerous transactions with these member credit unions. The transactions were based on the individual credit union's investment and liquidity needs and their approved line-of-credit agreements. Management is of the opinion that these transactions were made in accordance with existing regulations and were consummated on terms equivalent to those that prevail in arm's length transactions.

As of December 31, 2015 there was one loan outstanding to these member credit unions in the amount of \$1,310,995. As of December 31, 2014 there were no loans outstanding to these member credit unions. Deposits from these member credit unions at December 31, 2015 and 2014 amounted to \$383,404,307 and \$317,388,368, respectively.

NOTE 9 - RETIREMENT PLANS

Defined Benefit: The Corporate's defined benefit pension plan, as of December 31, 2015, covers substantially all of its full-time employees that were employed as of February 2, 2013. Effective February 2, 2013, Corporate America amended the pension plan to eliminate future benefit accruals. The benefits earned through February 2, 2013 will not be affected by the change and will be paid in accordance with the terms of the plan. The plan provides payment to participants at varying retirement dates. The plan benefits payable are generally determined based on length of service and employee compensation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 9 - RETIREMENT PLANS (Continued)

Information about the plan's funded status and amounts recognized in the Corporate's financial statements for the years ended December 31, 2015 and 2014 are as follows:

	2015	2014
<u>Change in projected benefit obligation</u>		
Benefit obligation at beginning of year	\$ 1,442,377	\$ 1,848,385
Service cost	-	-

Total recognized in net periodic benefit cost and other comprehensive income	<u>\$ 1,170,371</u>	<u>\$ (419,541)</u>

**NOTES TO
CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 9 - RETIREMENT PLANS (Continued)

Assumptions at year end

Weighted average discount rate	4.00%	4.00%
Expected long-term return on plan assets	6.00%	6.00%
Rate of increase in future compensation levels	0.00%	0.00%

Cash flows

Expected contributions for period beginning 1/1/2016	\$	-
Expected benefit payments for period beginning:		
1/1/2016	\$	9,167
1/1/2017		9,068
1/1/2018		31,050
1/1/2019		30,187
1/1/2020		29,378
Five years thereafter		268,981

The estimated net loss and transition asset for the defined benefit pension plan that will be amortized from accumulated other comprehensive income into net periodic benefit cost over the next fiscal year are \$135,544 and \$0.

Basis used to determine discount rate - The discount rate is determined using the Citigroup Pension Liability Index as of December 31, 2015. The result is rounded to the nearest quarter percent.

Basis used to determine long term rate of return on assets - Expected long-term return on plan assets is determined by applying historical average investment returns from published indexes relating to the current allocation of assets in the portfolio.

Description of investment policies and strategies - The Corporate's overall investment strategy is to safeguard the benefits they are obligated to pay to the employees. The pension fund is invested in broadly diversified funds to attempt to achieve a long term annual average rate of return equal to approximately 6% while maintaining a reasonable volatility level.

The fair values of the Corporate's pension plan assets at December 31, 2015 and 2014, by asset category are as follows:

		Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>Total</u>				
<u>December 31, 2015</u>				
JH LS Balance Active Strategy	\$ 245,164	\$ 245,164	\$ -	\$ -
JH LS Moderate Active Strategy	745,609	745,609	-	-
JH LS Conservative Active Strategy	<u>324,381</u>	<u>324,381</u>	-	-
	<u>\$ 1,315,154</u>	<u>\$ 1,315,154</u>	<u>\$ -</u>	<u>\$ -</u>
<u>December 31, 2014</u>				
JH LS Balance Active Strategy	\$ 249,164	\$ 249,164	\$ -	\$ -

	<u>\$ 1,668,820</u>	<u>\$ 1,668,820</u>	<u>\$ -</u>	<u>\$ -</u>

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 9 - RETIREMENT PLANS (Continued)

Level 1 Inputs – The JH LS Balance Active Strategy, JH LS Moderate Active Strategy and JH LS Conservative Active Strategy growth are mutual funds in which the valuation is based on quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

During 2014, pension plan assets were transferred from the CUNA Mutual Stable Value Fund, the value of which was determined using Level 3 inputs. There was no other activity in pension plan assets during 2014 while invested in the CUNA Mutual Stable Value Fund.

401(k) Plan: The Corporate sponsors a profit sharing 401(k) retirement plan covering substantially all employees. Under the plan, the Corporate matches the first 5% of the participant's deferral. The Corporate's expenses related to this plan for the years ended December 31, 2015 and 2014 totaled \$132,571 and \$186,385, respectively.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Financial Instruments With Off-Balance-Sheet-Risk: The Corporate, in the normal course of business, is party to conditional commitments to meet the investment and liquidity needs of member credit unions and to reduce its overall exposure to fluctuations in interest rates. These commitments represent financial instruments to extend credit which are primarily advised lines of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the statement of financial condition. The contract or notional amounts of those instruments reflect the extent of involvement the Corporate has in particular classes of financial instruments. The Corporate's exposure to credit loss is represented by the notional amount of those instruments. The Corporate uses the same credit policies in making commitments as it does for on-balance-sheet instruments. The Corporate requires collateral or other security to support financial instruments with credit risk. As of December 31, 2015 and 2014, unfunded commitments under advised lines of credit approximate to \$2,299,830,753 and \$2,399,788,291, respectively.

Commitments under revolving lines of credit are subject to the member credit unions meeting certain requirements set by the Corporate at the time advances are required. Since many commitments are never fully drawn, the total committed amount does not necessarily represent future cash requirements. Management evaluates each member's creditworthiness on a case-by-case basis. Advances are secured by substantially all of the member's assets excluding residential real estate loans.

Lawsuits: The Corporate was not party to any legal actions as of December 31, 2015.

NOTE 11 - FAIR VALUES OF FINANCIAL INSTRUMENTS

Determination of Fair Value: Corporate America uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. In accordance with FASB ASC 820, *Fair Value Measurements*, the fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Corporate's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 11 - FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

Fair value accounting guidance provides a consistent definition of fair value, which focuses on exit price in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under current market conditions.

Fair Value Hierarchy: In accordance with fair value guidance, Corporate America groups its financial assets and financial liabilities generally measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

Level 1 - Valuation is based on quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuation is based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or model-derived valuations whose inputs are observable or whose value drivers are observable. This category generally includes Corporate America's U.S. Government agency and government sponsored mortgage-backed and asset-backed securities, and non-agency student loan asset-backed securities.

Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity); unobservable inputs reflect management's own assumption about the inputs used in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques, as well as instruments for which determination of fair value requires significant management judgment or estimation. This category primarily consists of the Corporate's auction rate securities (ARS) collateralized by FFELP-backed student loans.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The following methods and assumptions are used by the Corporate in estimating the fair value of its financial assets and financial liabilities on a recurring basis:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 11 - FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

Level 2 Fair Value Measurements - Corporate America's available-for-sale securities, excluding auction rate securities, are valued primarily by third party pricing services. The fair values of these securities are determined on a recurring basis by obtaining quoted prices from nationally recognized pricing vendors (Level 2) or by using pricing models that utilize significant observable inputs such as matrix pricing. Matrix pricing is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities, which is a Level 2 input. Security values were determined by computing an average of the prices/values provided by the third party services.

Level 3 Fair Value Measurements - are based on inputs that are unobservable and significant to the overall valuation. Level 3 fair value measurements include security types that do not have readily determinable market values and/or are not priced by independent data sources. Corporate America's available-for-sale securities measured using Level 3 fair value measurements consisted almost entirely of auction rate securities (ARS) for which the auction process has been in a state of continuous failure since early 2008. As a result of the auction failures, Corporate America's ARS do not have a readily determinable market value. To estimate their fair value, Corporate America obtains Indications/prices from a third-party that specializes in less liquid securities. Valuation methods employed by this third party include 1) discounted cash flow model valuations, where the expected cash flows of each security is discounted to the present value using a yield that incorporates compensation for credit, illiquidity, and other risk factors and 2) market comparable methods, where each security is valued based on indications, from the secondary market, of what discounts buyers demand (and sellers will accept) when transacting in similar auction rate securities.

Fair values of available-for-sale securities that are measured on a recurring basis at December 31, 2015 and 2014 are as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 11 - FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

The following methods and assumptions were used by the Corporate in estimating fair value disclosures for financial instruments:

Cash and cash equivalents - The carrying amounts reported in the statements of financial condition for cash and cash equivalents approximate those assets' fair values.

Investment securities - Fair values for investment securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments or using pricing models and discounted cash flows that consider standard input factors such as observable market data, benchmark yields, interest rate volatilities, broker/dealer quotes and credit spreads. See discussion of investment securities above.

Loans to members - The carrying amount is a reasonable estimate of fair value as the interest rate on these loans generally reset to market on a monthly basis and the fixed rate loan is currently at a market rate.

Accrued interest receivable - The carrying amounts of accrued interest receivable approximates the fair values.

Borrowings from FHLB - The carrying amount of variable rate borrowings approximates their fair value. For fixed rate borrowings, fair values are determined by discounting the remaining payments due using incremental borrowing rates for similar obligations.

Accrued interest payable - The carrying amounts of accrued interest payable approximates the fair values.

Members' Accounts - The carrying amount of daily shares and certificates approximates fair value as the balances are due upon demand or re-price frequently based on current market rates. For fixed-term share certificates, the fair value is estimated by discounting the future cash flows using rates currently available for similar share certificates. For certificates that do not have fixed terms, including membership shares and paid-in-capital shares, the fair values were estimated based on fair values of the assets associated with the member accounts. These values were adjusted for the present value of the estimated earnings.

Commitments to extend credit - Fair values of the Corporate's commitments to extend credit are based on the remaining terms of the agreements and the counterparties' credit standing.

The Corporate has no financial instruments that are held or issued for trading purposes.

The carrying values and estimated fair values of the Corporate's financial instruments as of December 31, 2015 and 2014 are as follows:

	2015		2014	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
