

# September 2021

FINANCIAL CONDITION REPORT

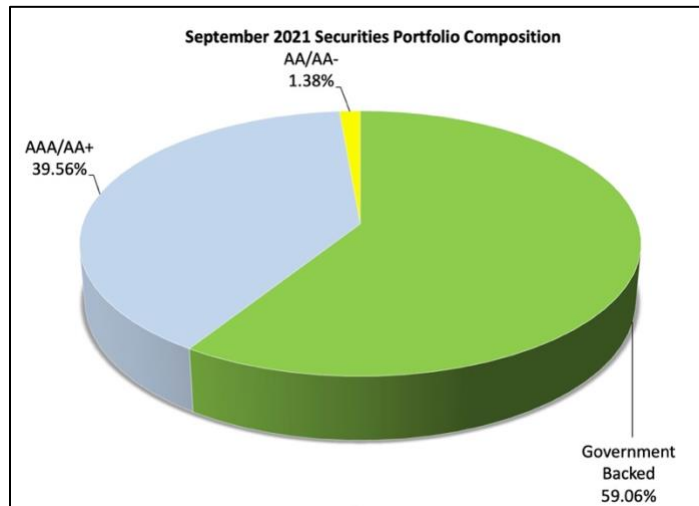

**CorporateAmerica**  
CREDIT UNION  
*DIFFERENT STARTS HERE™*

Measurement	September 2021	June 2021	Policy/Regulation Limit
Tier 1 Capital (Regulatory)	4.59%	4.10%	4.00%
Tier 1 Risk-Based Capital Ratio	13.21%	11.65%	4.00%
Total Risk-Based Capital Ratio	13.50%	11.93%	8.00%

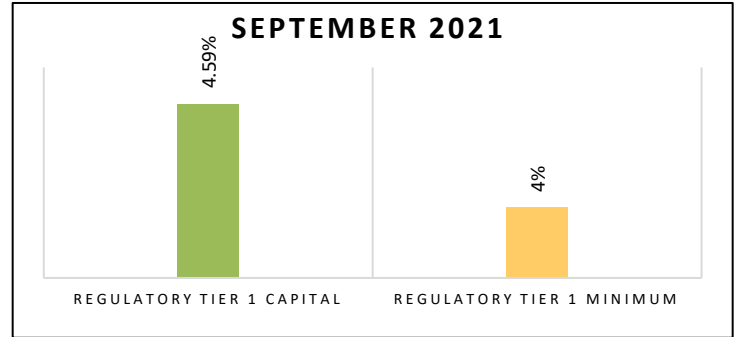

### Tier 1 Capital Calculation

The 704 regulatory definition of Tier 1 capital requires corporates to “deduct any amount of PCC received from federally insured credit unions that causes PCC minus retained earnings, all divided by moving daily average net assets, to exceed two percent when a corporate credit union's retained earnings ratio is less than two and a half percent.” As of September 2021, CACU is not required to reallocate from Tier 1 to Tier 2 capital as a result of the calculation.

### Capital

As of September 2021, Corporate America Credit Union (“CACU”) continues to exceed minimum capital requirements. As of September 30, our Tier 1 Capital Ratio is 4.59% and remains above the regulatory requirement of 4.00%. Both the Tier 1 Risked-Based Capital Ratio and Total Risk-Based Capital Ratio exceed the minimum requirements. This is primarily due to the higher concentration of government and agency holdings within the investment portfolio that carry a 0% to 20% risk weighting.

### Asset Quality

Corporate America’s investment strategy is one of purchasing high quality permissible securities with senior cash flow structures to provide competitive returns. CACU conducts detailed due diligence in assessing credit risk in non-government guaranteed positions. At the end of September, 59.06% of the portfolio is government backed, 39.56% is rated AAA/AA +, and 1.38% is rated AA/AA.

### Net Economic Value (NEV)

The Corporate’s interest rate risk exposure is measured by using net economic value (NEV) and a NEV ratio. The primary risk measurement is the decline of net economic value in the up 300 basis point scenario. As of September 30, we remain within regulatory limits as evidenced in the table to the right. Interest Rate Risk is monitored and reported to the board on a monthly basis.

Measurement	September 2021	June 2021	Policy/Regulation Limit
Max % Decline NEV (up 300 bp)	-8.78%	-5.51%	-20.00%
Base NEV	5.13%	4.95%	3.00%
Minimum NEV Ratio	4.74%	4.73%	2.00%

Measurement	September 2021	June 2021	Policy/Regulation Limit
WAL Financial Assets	1.80	1.88	2.00
AWAL Financial Assets	2.17	2.21	2.25

### Weighted Average Life (WAL)

Weighted Average Life (WAL) of Financial Assets measures the life of all assets including investment, loans and cash. Adjusted Weighted Average Life (AWAL) is adjusted for a 50% slowdown in prepayments on investments. As of September 2021, we remain within policy/regulatory limit as shown in the table to the left.

### Liquidity

As of September 2021, total advised lines of credit to member credit unions were approximately \$2.4 billion. Combining cash held, tested sources of liquidity and liquid marketable securities, \$4 billion could be raised in a short period of time, if needed, to address a severe liquidity event.
